Courses for Dentists 2005

The Art of Mastering
Direct Composite Veneers

A Hands-on Approach
One Day Course

- 20 May 2005 - Melbourne
 - 10 June 2005 - Sydney
 - 19 August 2005 - Brisbane
 - 21 October 2005 - Perth
 - Date TBA - Adelaide
- presented by
Dr Terry Wong, B.D.Sc. (Melb)

"When Terry took my course at LVI, I was impressed with his focus on learning and his work was terrific. There's no question he has knowledge to share."
Dr Ronald Jackson
D.D.S., F.A.G.D., F.A.C.D.

"Dr Terry Wong is a dentist with a lot of passion for Dentistry. His skills and open-minded approach to conservative dental treatment grant him the ability to be an excellent restorative dentist with composite resins - one that would be worth learning from."
Dr Newton Fahl
D.D.S., M.S.

If numbers are full, expression of interest for additional courses can be requested on the enrolment form.

Dr Terry Wong
B.D.Sc. (Melb)

Dr Terry Wong graduated from Melbourne University School of Dental Science in 1987 and maintains a general practice in Kew, Melbourne, with emphasis on aesthetic Dentistry. He is a graduate of the Las Vegas Institute of Advanced Dental Studies receiving hands-on instruction from Dr William Dickerson and Dr Ronald Jackson. He is also a graduate of the Fahl school of Art and Science in Aesthetic Dentistry (Curitiba, Brazil) having received personal tuition from Dr. Newton Fahl.

THE ART OF MASTERING

DIRECT COMPOSITE VENEERS

A Hands-on Approach

This is a concise, one day course focusing on the value and understanding of direct composite resin veneers. A short lecture will be followed by a hands-on approach on models. You will learn how to artistically sculpt composite resin to mimic tooth morphology. You will be taught how to manage almost every case of poor Dental aesthetics and understand that composite resin can be a beautiful alternative to ceramic veneers, while being conservative and brilliantly aesthetic.

before

after

You will be able to return to your clinics and immediately put into practice with confidence the skills acquired from the workshop. Your patients will appreciate that you can offer a broader range of treatment options to enhance poorly aesthetic teeth. In return, you will achieve immense personal satisfaction in being able to control the case from start to finish, in delivering to your patient, a beautiful smile.

Topics covered in the workshop:

- Learning the principles of an aesthetic smile
- Understanding the tooth preparation required for direct resin veneers
- Learning the layering technique of composite resin to achieve natural aesthetics
- Knowing what armamentarium is required for optimal handling of resin
- Discussing the finishing aspects to achieve long lasting aesthetic restorations
- Using mock-ups in case diagnosis and treatment planning
- Marketing direct resin veneers in your practice
- Introduced to the 4 seasons composite resin system
