Aesthetic

Everyday Dentistry

**You're Invited to a Composite Layering Technique Lecture
on Saturday, 28th of June 2014.**

Aesthetic Everyday Dentistry: A Simple Dual-Shade Technique

In this "Hands On" workshop you will learn an exclusive dual-shade technique for better shade matching and excellent aesthetic results. You will master this technique to produce restorations that blend with the natural tooth using only two shades of **3M™ ESPE™ Filtek™ Supreme XTE Universal Restorative** and the colour recipes developed by Style Italiano. This workshop is recommended to every dentist wanting to learn an easy, reproducible and consistent technique, master shade matching and learn how to create beautiful restorations that will bring excellent aesthetics to your dentistry.
