Courses for Dentists 2008

with composite resin

www.ivoclarvivadent.com.au

SIMPLES BY GESTEIN With composite resin on the value and understanding of direct composite resin veneers. A short lecture will be followed by a hands-on approach on models. You will learn how to artistically sculpt composite resin to mimic tooth morphology. You will be taught how to manage almost every case of poor dental aesthetics and understand that composite resin can be a beautiful alternative to ceramic veneers, while being conservative and brilliantly aesthetic.

Dr Terry Wong B.Sc (HONS) Melb, B.D.Sc (Melb)

> I was impressed with his focus on learning and his work was terrific. There's no question he has knowledge to share." Dr Ronald Jackson D.D.S., F.A.G.D., F.A.A.C.D.

"When Terry took my course at LVI,

University in 1987. He

maintains a general practice

in both Melbourne and

Shanghai with emphasis on Aesthetic Dentistry. He

has been an attendee at the

Las Vegas Institute and has

been personally instructed by Newton Fahl of the Fahl School of Art and Science

in Aesthetic Dentistry in Brasil. Presently he lectures

at Melbourne University on the topic of Aesthetic

Dentistry.

"Dr Terry Wong is a dentist with a lot of passion for dentistry. His skills and open-minded approach to conservative dental treatment grant him the ability to be an excellent restorative dentist with composite resins - one that would be worth learning from." Dr Newton Fahl D.D.S., M.S.

You will be able to return to your clinics and immediately put into practice with confidence the skills acquired from the workshop. Your patients will appreciate that you can offer a broader range of treatment options to enhance poorly aesthetic teeth. In return, you will achieve immense personal satisfaction in being able to control the case from start to finish, in delivering to your patient, a beautiful smile.

Topics covered in the workshop:

- Learning the principles of an aesthetic smile
- Understanding the tooth preparation required for direct resin veneers
- Learning the layering technique of composite resin to achieve natural aesthetics
- Knowing what armamentarium is required for optimal handling of resin
- Discussing the finishing aspects to achieve long lasting aesthetic restorations
- Using mock-ups in case diagnosis and treatment planning
- Marketing direct resin veneers in your practice
- Introduced to the 4 seasons composite resin system

Maximum number of participants: 9

8:30 am - 5:00 pm (includes lunch & refreshments) Time:

Smiles by design with composite resin
