The Art of Beautiful Smiles

A Hands-on Course for Dentists — 7 CPD Hours

By Dr. Terry Wong B.Sc. (Hons) Melb., B.D.Sc. Melb.

LIMITED PLACES **BOOK NOW!**

Course 1: Posterior Composites - Technique for Achieving Maximum Aesthetics

1 Day Course

The placement of direct posterior composite restorations can be difficult. The dentist requires an understanding of both bonding and shade determination along with handling, shaping and polishing the material.

When restoring proximal surfaces, achieving an adequate contact point can often be a challenge. Dr. Terry Wong addresses these issues and equips the dentist with the skills to achieve durable and aesthetic results by adopting a simplified approach, with fewer instruments.

On completion of this course, participants will be able to:

- Competently select shades for posterior composite restorations
- Reduce post-operative sensitivity with bonding
- Achieve occlusal anatomy and tight contact points
- Minimise occlusal adjustments
- Understand which instruments to use
- Refine the skills of shaping, finishing and polishing of composites

Course 2: Anterior Direct Bonding 1 Day Course - A Simplified Approach

Dr. Terry Wong presents a morning lecture that highlights the important aspects of smile design. Participants will gain an understanding of how to select shades of composite and then manipulate and place lavers of different shades of composite to produce an improved aesthetic outcome.

An afternoon hands-on program focuses on the direct placement of composite resin for the correction of aesthetic issues ranging from misshaped and misaligned teeth.

On completion of the course, participants will be able to:

- Understand the principles of smile design
- Improve your aesthetics skills in direct composite resin veneers
- Gain a better understanding of colour and how to select the appropriate shades of composite and manage discoloured teeth
- Use hands-on techniques for multi-layering of composite resin shades
- Refine your skills of shaping, finishing and polishing of composites

"Dr. Terry Wong is a dentist with a lot of passion for dentistry. His skills and open-minded approach to conservative dental treatment grant him the ability to be an excellent restorative dentist with composite resins – one that would be worth learning from." Dr. Newton Fahl D.D.S., M.S. "Will change my future practice..." Dr. Wayne Ottaway, Launceston — 2012 participant

Dr. Terry Wong B.Sc. (Hons) Melb., B.D.Sc. Melb.

Dr. Terry Wong lectures internationally on the topic of composite resin restorations. Presently, Dr. Wong lectures at Melbourne University and La Trobe University in Bendigo on the topic of Aesthetic Dentistry and conducts hands-on programs about free handed delivery of composite restorations.

He attended the Las Vegas Institute and studied

occlusion at the Kois centre in Seattle. He has been personally instructed by Dr. Newton Fahl of the Fahl School of Art and Science in Aesthetic Dentistry in Brazil. Dr. Wong obtained his degree at Melbourne University in 1987 and maintains a general practice in Melbourne with emphasis on restorative dentistry.
