# Anterior resin bonding techniques and the One Visit Crown (OVC<sub>3</sub>)

DARWIN

Dr Terry Wong  
B.SC (HONS) MELB, B.D.SC (MELB)

**Including a hands-on workshop on the One Visit Crown (OVC<sub>3</sub>) - no CAD/CAM needed.**

## Part 1: Mastering composite aesthetics with minimal intervention.

You will understand the why's and how's of delivering optimally aesthetic direct composite veneers, using the free-hand technique. A large focus of the lecture will be actual case studies, that will guide you step-by-step. By the end of the programme, you will be more proficient in the handling of composite resin veneers, to achieve great aesthetics.

- Why's and hows of delivering optimally aesthetic direct composite veneers
- Smile design
- Selecting composite shades
- Masking discoloured teeth
- Achieving natural tooth shape
- Choosing the correct hand instruments
- Finishing and polishing composites

## Part 2: Hands-on workshop for the OVC<sub>3</sub>

- We'll show you how you can convert large complex restorations into predictable high-quality clinical outcomes and increase your case acceptance rates.
- Discover how many dentists are accessing a new segment of the market by offering crowns to patients who turn down critical treatment due to financial reasons.
- See how the McDonald Matrix Band makes the procedure even more consistently predictable.
- We'll show you why the One Visit Crown has a place in a growing number of practices across Australia, including yours.

## Presented by Dr Terry Wong

Dr. Terry Wong lectures internationally on the topic of restorative dentistry. Presently, Dr. Wong lectures at Melbourne University on the topic of Aesthetic Dentistry and conducts hands-on programs about free handed delivery of restorations.
